

DECORATIVE FLAKE SYSTEM COLOR CHART

STANDARD BLEND COLORS

Application Methods

Decorative Vinyl Flakes can be used in architectural seamless floors to form colorful, high strength systems. Vinyl Flakes are most commonly applied in broadcast systems.

Petra's Workhorse 7400 100% solids epoxy provides a secure binder and top coat, with high gloss suited for a broad range of architectural systems.

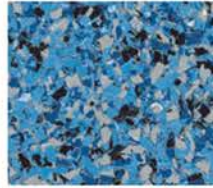

Color Matching

In addition to the 20 standard color blends shown here, we also have access to over 500 custom colors. For blending to order, and matching custom colors, contact Petra for custom samples. By combining colors, you can achieve a vast array of color options.

**Not a specification

**Color chart is for informational purposes only. Colors may vary from actual vinyl flakes. We recommend that you request samples before making a final selection.

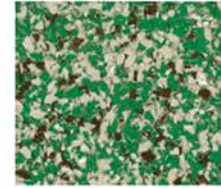

Blends are available in 1/4" (Macro) and 1/16" (MICRO) sizes.
