

WORKHORSE 7000

UNIVERSAL 100% SOLIDS EPOXY

WorkHorse 7000 is a two-component 100% solids epoxy floor coating that can be applied directly over properly prepared concrete surfaces. With excellent abrasion and chemical resistance, WorkHorse 7000 is a perfect solution for many environments.

AREAS OF APPLICATION

WorkHorse 7000 is suitable for use in new construction and rehabilitation of existing floors damaged from physical wear or chemical attack.

This epoxy can be applied in various ways, making it excellent in virtually any environment where high chemical resistance, heavy traffic durability, and aesthetics are required.

Concrete Floors:

Warehouses, Automotive Shops, Institutions, Aircraft Hangers, Residential Garages & Shops, Vet Clinics, Food & Beverage, etc.

INDUSTRIAL BROADCAST

30-40 mil thickness

This is our most popular system for the Auto Industry, and is excellent for an environment needing a cost effective high build floor system with optimum strength and durability. Petra's **Industrial Broadcast** floor is a three-component, 100% solids epoxy system, consisting of two rolled-on coats of WorkHorse 7000, with a broadcast of fine aggregate in between coats. The top coat finish can be smooth or non-skid if desired.

16 MIL SYSTEM

Two 8 mil coats of WH7000

Our most affordable system that offers excellent durability and chemical resistance. This floor consists of two, 8 mil coats of WorkHorse 7000. The top coat finish can be smooth or non-skid if desired.

COLOR

WorkHorse 7000 is available in 6 standard colors. Custom colors available upon request.

Color chart is for informational purposes only. Color samples can be sent upon request.

SURFACE PREPARATION AND INSTALLATION

Petra Coatings custom manufactures these products to order, and also provides certified, warranted installation. In most cases, concrete surfaces require mechanical scarification using a fine brush blast (shot blast) until a suitable profile is achieved. In some cases, sanding is required if the system is being installed over an existing floor coating.

Call for installation quote, prices vary on location and size of project.
